I am a second year electronics undergraduate seeking work experience in the field of IT and Electronics to enhance my education.

Educational Background

Ongoing Degree Studies (2016-present):

University of Southampton

MEng Electronics Engineering with Nanotechnology

First Year Results

Module Name	Mark
Electronic Circuits	90
Programming	78
Digital Systems and Microprocessors	91
Advanced Programming	81
Solid State Devices	92
Electric Materials and Fields	86
Electronic Systems	80
Maths for Electrical and Electronic Engineering	94

High School (2014-2016):

Nanyang Junior College, Singapore

Singapore-Cambridge GCE A-Level Results

Level	Subject	Grade
H2	Physics	A
H2	Chemistry	A
H2	Mathematics	A
H2	Economics	B
H1	General Studies	A
H3	NUS Modern Physics	Distinction

Relevant Technical Skills

- Intermediate proficiency in C, C++ and Embedded C
- Experience in the use of EAGLE PCB design software
- Experience with PCB assembly
- Good understanding and experience with SystemVerilog, the use of the simulation software, MultiSim and familiarity with programmable logic devices

Language Proficiency

- Indonesian (Native)
- English (Fluent in oral and written form)
